(Bill 23)**

PURPOSE OF DEVELOPMENT CHARGES

Each new housing and commercial unit and the corresponding occupancy of that unit generate capital costs which should be financed from this new development. Development charges are a viable capital funding source to recover the net costs of these capital expenditures. In arriving at the net cost, allowance is made for provincial and/or federal grants, where applicable, and other sources of funding as well as the other deductions required by the *Development Charges Act, 1997*.

BY-LAW NO. 2023-012

On May 13, 2019, in accordance with the *Development Charges Act, 1997*, the Council of the Township of Uxbridge passed By-law No. 2023-012 for the imposition of uniform development charges against all lands within the boundaries of the Township that were developed for residential, commercial and industrial uses. The Township’s development charges will apply to most new residential and non-residential buildings and certain expansions.

The Township’s development charges are set out in the following schedules, according to the growth-related services for which the charges are imposed as well as the unit type, in the case of residential dwellings. All development charges set out in these schedules are effective as of July 11, 2022, for all uses. The Township residential development charges will be indexed on July 1st of each year, commencing July 1st 2022, in accordance with the annual change in the Statistics Canada Quarterly, Construction Price Statistics (catalogue #62-007) based on the 12-month period ending March 31st. All forms of non-residential development charges shall be subject to increased charges, plus indexing, as of July 11, 2022.
